HEALTHCARE SCREENING LEADER

Expect More.

It's our purpose to **redefine value in background screening**. Here's how we do it.

1 A True Partnership

We're all in. Together, we'll work to develop a screening program that addresses the whole process: maximizing your budget, delivering accurate results and bringing unparalleled efficiency to your process.

> "I don't know how many clients you have. But I usually feel like we're number one."

2 Actionable Information, At Every Level

Data matters. From info-packed case reports to program-specific, real-time metrics and in-depth quarterly business reviews, we provide the actionable information to drive smart decision making.

EXPECT MORE:
- Key metrics are front-and-center on the EASE Dashboard
- Quarterly business reviews with our customer success team

4 We Seek Truth

Your reputation is *our* reputation. It's why we dig deeper, always getting information from primary sources. Our proven process goes beyond checking a box, providing thorough and accurate primary source data in less time.
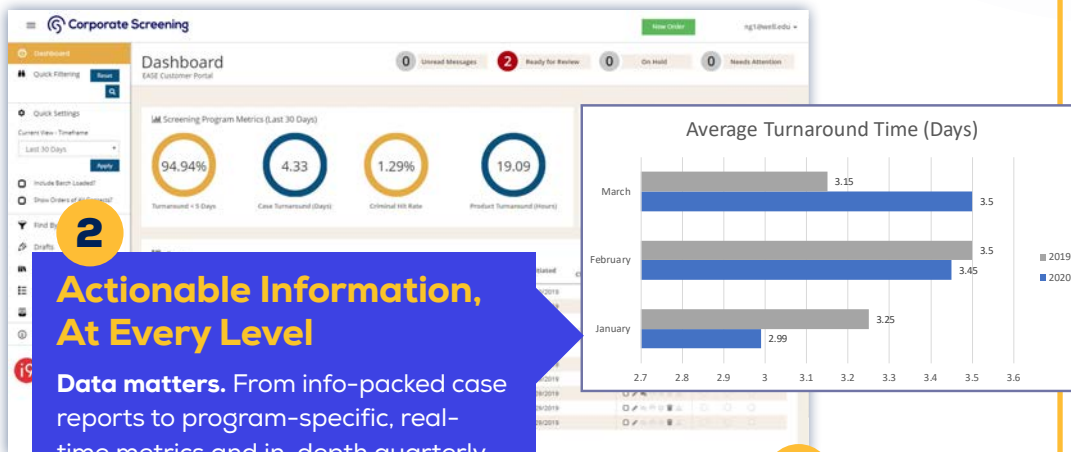

3 Configurable Tech, Agility to Perform

Consciously innovating to exceed expectations. Corporate Screening was among the first to develop a web-based background screening management platform. Two decades later, our proprietary platform is constantly evolving. Open collaboration and customer feedback influences feature development. Our in-house IT team is dedicated to creating the best candidate and customer experience.

EXPECT MORE:
- Among first screening providers with Oracle Recruiting Cloud integration
- Top-rated screening provider on Oracle marketplace (Gold Partner)
- Digitize hard-copy processes with customized, state-specific forms
- Real-time "true continuous" OIG/GSA and license monitoring with CS SafeGuard

Average Turnaround Time *(per Instance)*
49 HOURS

Instances Completed within 72 Hours:
