Product Overview

Axillon (Baltimore). has proven industry-leading experience with antenna & radome design, development, manufacturing, and RF testing. We specialize in electronic warfare products for ground, maritime, airborne, and space applications.

Radomes we specialize in:

- Electronic Warfare (EW)
- Radar Warning Receiver (RWR)
- Satellite Communications (SATCOM)
- Intelligence, Surveillance, and Reconnaissance (ISR)
- Communication, Navigation, and Identification (CNI)
- Air Surveillance and Defense Radar

Antennas we specialize in:

- High power antennas for EW
- High Temperature Antennas
- Spiral Antennas
- Low Observable Antennas
- Conformal data link and SATCOM
- Aircraft blade antennas for CNI

Platforms

- F-15, F-16, F/A-18, E/A-18G
- P-3, CP-140, C-130, C-27
- Adversary, Spec. Mission, and Strike Aircraft
- Unmanned Aerial Vehicles (UAVs)
- Configurable Pods
- Rotary-Wing Aircraft

- Surface Ships
- Unmanned Underwater Vehicles (UUVs)
- Air Surveillance and Defense Radars
- Ground Based EW
- High Temperature Applications
- Munitions
