

DELTA CARE
INNOVATION IN HOSPICE & SERIOUS ILLNESS

As a hospice, palliative care and/or serious illness provider, do you want to...

- **ensure** you're getting full value for every dollar you spend on pharmacy...
- **know** exactly what you pay for every prescription...
- **have** real options as to how those meds are delivered to your patients...
- **know** exactly how and how much your pharmacy and/or pharmacy benefit manager gets paid...
- **bring** innovative solutions to the bedside that not only simplify things for your clinicians but support quality care...
- **move** into the future with a company committed to making the jobs of clinicians at the bedside easier and more efficient...
- **partner** with a company founded, owned and operated by pharmacists with an unyielding passion for, and commitment to, serious illness, hospice and palliative care...
- **not** do business with a pharmacy benefit manager owned by an insurance conglomerate, or, even worse, by one of your hospice/home health competitors?

Then talk to Delta Care Rx today to learn more about how Delta Care's pharmacy benefit management, Rx mail order, and related products and services can ensure your bottom-line sustainability, quality of care, clinician satisfaction and peace of mind.

Advancing the hospice mission with patient-centered, cost-effective pharmacy solutions

Delta Care management has been working with hospice leaders since the late 1990s to develop and implement patient-centered, cost-effective pharmacy solutions that advance the hospice mission.

- Pharmacy Benefit Management
- Mail Order Pharmacy
- Infusion Pharmacy
- ePrescribing
- On-Demand Pharmacist Services (ODPS)
- Adapt Health (Telehealth experience w/additional pharmaceutical care add-ons)
- Virtual Intake Portal (Cloud-based admissions portal)
- EMR Interface (Quick & easy EMR interfacing without the aggravation)
- Deltalytics (Delta Care's web-based, proprietary, advanced and comprehensive reports generator)
- Inpatient Innovations (A remote Delta Care pharmacy that sits in your inpatient unit or hospice house)
- DME Management
- Delta Campus (Online webinars on pharmacotherapy topics offering no-cost CE credits for hospice clinicians)
- Hospice Live (Provider-pharmacist video consults directly at the patient bedside)
- PDM-Pal (Simplifying compliance with state-specific Prescription Drug Monitoring Programs)
- e-CAT (Electronic CMS Addendum Tool)
- DIY Hospice Program (Sample Delta Care by cherry-picking lower-priced drugs and DME)
- Lily (A clinician assistant providing one tap access and voice access to all Delta Care Rx products and services)
- CR8358 Management
